## Important Policy Underwriting Information

#### **Hold Harmless**

We have done extensive research on these plans and put many in place each year. Even so, we advise Intended Parents to ask questions in pursuit of making their own informed decisions.

Contracts will generally be between Surrogate, Intended Parent(s) or their agencies or otherwise responsible parties and the insurance company, not with International Fertility Insurance ("IFI").

International Fertility Insurance ("IFI") is to be held harmless.

We encourage Intended Parents to choose carefully and read the policy documents. We are more than happy to help have any questions answered. We will run through any scenarios on your request. It is especially important to be careful before cancelling any policies.

Policies and use thereof can change between video and slide deck updates. The policy language is the final determinant of coverage. Please be sure to ask questions until you are fully confident!

We are here to help!

#### The Following is a Basic Overview

Please ask for more detail or policy specimens for full clarity.

Terms and pricing subject to change. Please note: All

Service Fees are Non-Refundable.

### **Coverage by State and Pricing Basics**

Costs listed in the slides that follow generally refer to:

- Surrogates ages 21-40 that meet "preferred criteria"
- Donors ages 18-40, domestic US cases, no complications in previous cycle
  - Higher rates exist for Surrogates or Donors outside this range/criteria or without adequate screening

#### **Coverage May Not be Available in All States**

Write <a href="mailto:info@goifi.com">info@goifi.com</a> if involved parties reside in CO, IN, LA, MD, MI, NE, NY, SD, WA.

#### **Hospital Indemnity Policy Only:**

Surrogate may not reside in FL or NY.

Please contact IFI for additional information, detailed/complete explanations of the applicable coverage terms and conditions.

## Preferred Criteria Lloyds Maternity, Bedrest, Stillbirth and Newborn policies

In order to qualify for preferred pricing and potentially to qualify for the plans, candidate medical profile and maternity history cannot contain any of the following:

(coverage may still be available at higher terms for those with these factors)

- Surrogates younger than 21 or older than 40 (unless otherwise agreed)
- More than 3 previous C-sections or more than 5 pregnancies
- Prior history of diabetes or gestational diabetes requiring hospitalization
- Prior history of hypertension or pregnancy induced hypertension requiring hospitalization
- Prior history of pre-eclampsia
- Documented blood pressure reading within the 30 days prior to the effective date that was higher than 135/85
- Prior delivery earlier than 6 months prior to conception
- Prior history of pre-term labor (labor before 37<sup>th</sup> week of singleton pregnancy, 36<sup>th</sup> week of twin pregnancy)
- Prior obstetrical complications that risk recurrence during a future pregnancy and present as an adverse finding significant for a healthy pregnancy outcome
- BMI (body mass index) less than 18.5 or greater than 32.0
- History of physician ordered bedrest (bedrest policy) (situational bedrest may be considered)
- History of stillbirth (stillbirth policy) (and Surrogate needs to be 40 and under)

## **Lloyd's Exclusions**

#### What is excluded from Lloyd's surrogacy insurance plans?

Like most surrogacy insurance policies, these plans do not include:

- Charges incurred by the surrogate for treatment of any medical condition other than for medically necessary medical expenses directly related to pregnancy
- Pre-Existing Conditions
- Genetic Testing and or Counseling
- Chiropractic Care
- Any gestation greater than twins; for example, triplets (singleton only for newborn coverage)
- Any expenses which exceed policy definition of reasonable and customary

For a complete explanation of the applicable coverage terms and conditions, please refer to the Lloyd's of London policy certificate wording(s) on file with International Fertility Insurance 'IFI'; Terms and Conditions are subject to change, please contact 'IFI' for information.

# IVF Cycle Complications Insurance and Management Services

## **Basics of IVF Complications Insurance (Donor/Surrogate)**

#### What is it?

• For Donor/Surrogate to cover complications of IVF that lead to emergency room visit/hospitalization.

Most personal insurance will not cover complications of fertility treatments when acting for another party. IFI is happy to review insurance for a fee.

#### What does it cover?

- Egg Donor Complications Insurance
  - Common claims include ovarian hyper stimulation syndrome (OHSS), ovarian torsion, allergic reaction to medication, bleeding, cramping, nausea and more.
- Surrogate IVF Complications Insurance
  - Common claims include allergic reaction to medication, ectopic pregnancy/rupture, abdominal pain, cramping, bleeding and more.

#### When do I order it, and when does it start and end?

 Most buy it once a medication schedule has been established. Assuming it is purchased and paid for by then it starts at start of medication and lasts for 4 months, or until confirmation of pregnancy in case of Surrogate.

## Basics of IVF Complications Insurance (Donor/Surrogate) (continued)

#### What else should I know about it?

- IFI Is happy to offer **worldwide coverage options**. Donors or Surrogates may cycle in one country and extend coverage upon their departure to include their home country. Ask for special pricing, details and terms.
- IFI policy has no network restrictions.
- Options for **Accidental Paralysis** (injury related to IVF complications) and **Loss of Reproductive Organs** (coverage for payment to Donor or Surrogate if complications lead to partial or full hysterectomy, or loss of single ovary or fallopian tube) (For Surrogate, coverage may be redundant if ordering similar coverages on Accidental Death policy).
- Easy to order, takes minutes, ordered online.

#### What is commonly requested?

- Commonly \$250k, which is \$395\* for Donors, and \$300\* for Surrogates at standard rates. Higher limits available.
  - \*Better rates available for clinics/agencies based on large volume and superior claims history.
  - In the case of <u>Donor</u> coverage, Loss of Reproductive Organs and Accidental Paralysis are commonly added (in the case of Surrogate, similar coverages found in Surrogate Accidental Death policy):
    - \$5,000 partial/\$10,000 full hysterectomy = \$200 commonly requested for donors
    - \$100,000 of Accidental Paralysis = \$160 at standard rates commonly requested for donors

## Local/Outside Monitoring Billing Management Services

## **Local/Outside Monitoring Management**

#### What is it?

#### Is IVF happening away from your Donor or Surrogate's local market?

Finding local/outside monitoring clinics taking on new patients can be a cumbersome process. Managing the process and billing can be even more time consuming. IFI has an experienced local monitoring support team happy to take on this important need for our agency or clinic partners, or for Intended Parents, reducing stress and saving valuable time. Without support, Intended Parents could potentially be paying excessive clinic charges and/or choosing clinics with inefficient services and/or processes.

#### What does it include?

- Level 1 (Unmanaged) provides a list of clinic(s) available based on proven clinic experience in the requested market area, including service cost estimates.
- Level 2 (Managed) includes additional support of patient registration, billing management in relation to the process and for IFI to act as a third-party liaison throughout location changes, faxing orders and more.

#### What are the advantages of this service?

- Stress reduction
- Time savings
- Proven clinic success
- Avoidance of excessive charges
- Experienced and professional management of services

#### When do I order it, and when does it start and end?

- Commonly ordered after a donor or surrogate is medically cleared
- Typically starts upon release of cycle schedule
- End of service dependent upon level chosen

#### What else should I know about it?

Can be utilized for specific testing and/or procedures outside of cycle scheduling

## **Local/Outside Monitoring Management – Level 1 (Unmanaged)**

#### Will your Donor or Surrogate need monitoring away from her IVF clinic?

(IVF clinic in state or city A, Surrogate/Donor lives in state or city B)

#### **Service Level 1 (Unmanaged)**

Pricing: \$300 per request

(volume discount \$250 available if outsourcing all cases; ~25 or more cases per year)

#### **Included in Level 1:**

- Receive a list of previously utilized Local/Outside Monitoring clinics in the patient's area and cost estimates for common services performed\*

#### Not Included (if you are requiring the assistance below, please choose Level 2):

- Appointment scheduling, faxing orders, and facilitating payment.
- Following up on results (this is always the responsibility of the clinic staff)
- Any time-of-service assistance between the ordering physician and the agency support staff. This includes rescheduling of missed appointments, missing or incorrect orders, and subsequent appointments that require different testing locations.

## **Local/Outside Monitoring Management- Level 2 (Managed)**

#### Service Level 2 (Managed) – 1 Cycle

Pricing: \$600 per request (Volume discount \$500)

#### Service Level 2 (Managed) - Unlimited Cycles with Same Donor or Surrogate – 1 Pregnancy

Pricing: \$1,000 Per request (Volume Discount \$900)

#### **Included in Level 2:**

- Receive a list of previously utilized Local/Outside Monitoring clinics in the patient's area and cost estimates for common services performed.\*
- Appointment registration (patient still needs to schedule her day/time), faxing orders, and providing payment instructions.
- Time-of-service assistance will be provided as a **3rd party liaison between the patient, IP clinic staff and agency staff** as needed. This includes **registration with new orders, missing or incorrect orders, subsequent appointments that require different testing locations**. Finding **workarounds to last minute calendar changes and visits upon request** of the ordering physician.

#### Not Included:

- Following up on results.
- Missed appointment/no-show changes when patient does not follow explicit instructions.
- Local/Outside Monitoring clinic mandatory patient registration forms (if applicable).

## **Local/Outside Monitoring Management (continued)**

#### \*Disclaimer - please read\*

The ability to accommodate outside monitoring Egg Donors and Surrogates has changed often with COVID levels by region, so proper re-verification will be required by agency and Egg Donor/Surrogate at time of scheduling. IFI makes no guarantees on acceptance of specific patient services or appointment availability.

All cost estimates provided are subject to change. If there are no prior records on pricing within the calendar year at listed facility, agency is responsible for obtaining if they wish to provide this for IPs.

IFI makes no guarantees for customer service, staff friendliness or timeliness of appointments at the local monitoring clinics. Understanding that we do not have established relationships with every location and cannot make assurances of the patient overall experience, we will do our best to provide feedback when appropriate.

#### **Health Insurance Policy Review**

Thorough review of gestational carrier's existing health insurance

- Available in the following options:
  - Goal Timelines ~5 business days (\$275), ~3 business days (\$325) or 2 business days (\$500)
  - Optional verification call to the insurance company (\$50)
  - Coordination of Benefits Review (\$75) Important to confirm if ACA will fit with existing plan

## **Health Insurance Reviews + Coordination of Benefits Review**

#### **Coordination of Benefits Review**

(+\$75) (not charged if existing plan covers surrogacy)

- Thorough review of gestational carrier's existing health insurance specifically to analyze if her plan will allow her to have another plan and which is primary if so.
- Helps avoid ordering additional plan for no reason if it won't be allowed to be used

## **Health Insurance Reviews + Coordination of Benefits Review**

#### What is it?

- Our experience shows approximately 80% of all medical bills contain errors. These errors cost Intended Parents money (excessive charges, double billing, overpayment). Delayed bill payments can also result in surrogates ending up in collections.
- IFI is pleased to provide professional, experienced management of billing throughout the surrogate pregnancy, delivery and post-partum with detailed reporting.

#### What does it include?

Surrogate's maternity medical billing account management including:

- Review of medical bills for accuracy to avoid excessive charges and double billing
- Ensure payments and adjustments are applied properly toward appropriate areas of the insurance contract (deductibles, co-pays, co-insurance, maximum out of pocket)
- OBGYN global fee pre-payments
- Specialist/Maternal Fetal Medicine
- Hospital facility charges
- Labs, ultrasounds and diagnostic testing
- Bills related to complications of pregnancy
- Provide agency or intended parents working without an agency with estimates
- Manage escrow funds and payments to providers
- Mitigate issues through steady communication with providers

### **Medical Billing Management**

Important Support Service to
Manage the Billing Process When Surrogate's
Employer-Based Plan, ACA Plan, or is Included in
IFI Surrogacy Maternity Plan

#### When do I order it? When does it start/end?

 Typically paired with ACA, or at medical clearance if pairing with employer plan. Starts at confirmation of pregnancy(ultrasound confirmation of heartbeat), ends upon zero balance with all providers (this involves reaching out to all providers, and surrogate to confirm zero balances).

#### What else should I know?

• Cost is \$2,000. Volume discounts may apply to agencies outsourcing all cases.

#### What is commonly ordered?

 ACA + Medical Billing Management ("Comprehensive" service level) or Employer Plan + Medical Billing Management.

\*Subject to change. Variations may apply based on provider requirements.

## Medical Billing Management Important Support Service to

Manage the Billing Process When Surrogate's Employer-Based Plan, ACA Plan, or is Included in IFI Surrogacy Maternity Plan

Thank you for all your support through both journeys...I have heard horror stories from other surrogates about getting bills paid and going to collections and such, but I have never had to worry about anything working with you. You are truly amazing, and again I can't thank you enough.

"My hospital...they never listened. Thankfully, I was able to hand over...these issues to my IFI medical billing coordinator to handle the back and forth. As my final bill arrived much to my surprise, (my billing specialist) had already reviewed and paid it on my behalf. I am so thankful to her for endlessly calling month after month to deal with my hospital billing chaos. I will be insisting on returning to this same group for my sibling journey."

"You're the best! Thanks for being so tenacious about it! "

"I'm glad you are back to help during this journey! You were my life saver!!"

"I will miss you, but if I ever lose my mind enough to do surrogacy again, I will tell the agency that a firm, non-negotiable condition is that you are my bill person because you are amazing. You are an absolute joy, and I will genuinely miss you."

"Thank you...I want to thank you again for all of the blood, sweat and tears you have put into helping us."

"Thank you for everything! It's been great working with you! Hopefully, we'll get you again for next journey!"

"How bittersweet our billing journey is coming to an end haha! I'll miss you 🤣 "

"I have no outstanding bills on my end, so I think we are good to close! Thank you for everything you have done for me during this journey, I will truly be forever grateful."

#### **Testimonials From Surrogates**

"Good news! The case agreement is in place and has been signed by the hospital and plan. I want to thank you again for your assistance staying persistent in seeing this through - it relieves some stress before the big day when we start a new chapter of our lives."

"Thanks so much for dealing with my craziness through all these frustrations. Hopefully, the rest of the journey won't have as many bumps. I appreciate your continued knowledge and support."

"THANK YOU and the entire team for taking one major stress off our plates during this process."

"These are \*great\* questions. I'm going to ask them! We really really appreciate this!"

"Thanks for answering my question regarding Medical Billing Support. That was exactly the information we were looking for. :)"

"We already cannot begin to tell you how grateful we are for your help in navigating this with the hospital and working to get some answers and clarity."

### **Medical Billing Management**

Important Support Service to
Manage the Billing Process When Surrogate's

IFI Surrogacy Maternity Plan

#### **Testimonials From Intended Parents**

#### Issue:

Surrogate notified of out of network provider after services were rendered. The provider knew after the first visit that they were out of network but continued seeing her. The provider submitted several appeals and had the account on hold for over 6 months. This has resulted in the account being put on hold multiple times with no resolve.

#### **Resolution:**

After trying for months to resolve this issue with the billing department with no success, we submitted a formal complaint against the billing department. After countless calls and escalation emails, the balance of \$4,797 was written off.

### **Medical Billing Management**

Important Support Service to
Manage the Billing Process When Surrogate's
Employer-Based Plan, ACA Plan, or is Included in

#### **Stories of Success**

#### Issue:

Provider did not disclose that self-pay flat rate delivery package wouldn't apply if surrogate had insurance (even though it doesn't cover surrogacy). We ask at cost estimate if discounts apply when surrogate cannot use their policy. There was no issue reported, we moved forward with the providers. Preparing for the delivery costs, we again explained surrogate is self-pay due to insurance having exclusion. The self-pay agreement was signed and arranged in advance of delivery. ~2 weeks after this, we received a call indicating contract was void as "she has coverage" and is not truly uninsured.

#### **Resolution:**

Re-explained she technically does not have coverage since insurance excludes surrogacy, making her uncovered/uninsured for this service. We advocated this was not disclosed at the cost estimate as well as previous calls and requested exception be made due to miscommunication and how close this was to delivery. We also advised the hospital, if they truly do not allow the self-pay package to be used in these instances of exclusions, we would take note and not allow future surrogacy cases at this provider. The conversations professionally escalated to upper management, and we continued to advocate for the situation.

Over 2 weeks, we continued to communicate. It was negotiated they would extend the self-pay package. The total billed was to be \$15,997 for delivery but with our due diligence and understanding of insurance language, we were able to secure the entire delivery cost for \$5,000, saving over \$10,000 just on delivery costs.

This created a relationship with this hospital for future cases. They will extend the self-pay rate, even when insured! A major win!

### **Medical Billing Management**

Important Support Service to
Manage the Billing Process When Surrogate's
Employer-Based Plan, ACA Plan, or is Included in
IFI Surrogacy Maternity Plan

#### **Stories of Success**

#### Issue:

The surrogate was cost screened for a singleton vaginal delivery. The surrogate ended up delivering twins via cesarean delivery. The escrow funds held for a singleton vaginal delivery were \$18,400. Total bills owed for a twin cesarean delivery were \$29,610.72. This would have cost an additional \$11,210.72.

#### Resolution:

We spoke with the provider's billing department to obtain the maximum discount possible. The conversations were **professionally escalated to upper management**. We **negotiated the total amount due with only an additional \$1,956.20 requested** in escrow funds.

## **IFI Surrogacy Maternity Plan**

When Surrogate's Health Insurance has Exclusions and No ACA/Health Insurance Options Available

## The Basics of the IFI Surrogacy Maternity Plan, Backed by Lloyd's

#### What is it?

• Cost conscious, efficient approach to the Lloyd's Maternity Plan, launched by IFI in 2019, that covers a surrogate pregnancy and delivery with professional medical billing management included.

#### What does it cover?

• Covered claim costs of an uncomplicated or complicated surrogate pregnancy and delivery.

#### What are the advantages of this plan?

- Available year round
- No network limitations
- Minimal cost to try for those with 1-2 embryos (\$250)
- Professional Medical Billing Management included (\$2,000 value)
- No need for Back Up/Secondary Maternity Plan (\$2,000+ Value)
- Ability to start on this plan and move to ACA if more favorable ("Bridge the Gap")

#### When do I order it, and when does it start and end?

• Most buy it upon medical clearance as underwriting is involved. Assuming it is purchased and paid for by then it starts at confirmation of pregnancy and lasts beyond birth for the length of the contract, up to 18 total months, longer on request, subject to underwriting discretion.

#### What else should I know about it?

- Plan provides \$500,000 of coverage, with ability to increase to \$750,000 or \$1,000,000 for additional fee.
- General cost ~\$20,000 to ~\$27,500 for uncomplicated pregnancy or ~\$31,800 for complicated pregnancy.
  - Twins, high-cost providers, and surrogates outside of preferred criteria may be higher.
- Maternity cost estimates (step 1) can take ~1-2 weeks and underwriting generally ~1 week.
- Coverage is subject to underwriting and begins upon payment and confirmation of pregnancy form received.

## The IFI Surrogacy Maternity Plan, Backed by Lloyd's Simple 3 Step Process

#### Step 1 - IFI Maternity Cost Estimate (routine pre-natal and delivery birth plan)

• IFI Maternity Medical Billing Team engages with providers (doctor and hospital financial offices) to negotiate self pay rate for your specific case (research fee \$250)

#### **Step 2 - Underwriting**

- Evaluation of Surrogate Medical Records against Lloyds "Preferred Criteria"
- Deductible is set of \$19,000 or higher based on estimate or underwriting

### **Step 3 - Confirmation of Pregnancy**

IFI collects maternity estimate plus \$4,750 which covers already completed underwriting, built in IFI
Maternity Medical Billing Management, and down payment to Lloyds of London for \$500,000 of coverage in
case of severe complications

#### What are the overall costs?

- General cost ~\$20,000 to ~\$27,500 for uncomplicated pregnancy or ~\$31,800 for complicated pregnancy
  - In a complicated pregnancy the deductible is fully funded and ~\$7,800 is due to activate a claim
  - Any excess remaining from estimate is returned.
  - Twins, high-cost providers, and surrogates outside of preferred criteria may be higher

#### **Bridge the Gap**

- If a more favorable option exists during ACA open enrollment Intended Parents may switch to an ACA plan. Medical Billing Management carries on to the ACA plan(\$1,800 savings). A Back-Up/Secondary insurance plan is not needed as this plan will remain as needed(\$2,000 savings).
  - Additional fees include ACA search fee, payment monitoring if desired, ACA monthly premiums, and
     ACA co-payments and coinsurance.

## The IFI Surrogacy Maternity Plan, Backed by Lloyd's Historical Success of the IFI Surrogacy Maternity Plan

## ~80

Percent of cases stay within the plans maternity estimate funds.

\*Any excess escrow is refunded.

## ~16

Percent of cases exceed the maternity estimate with additional funds required for unexpected medical bills, but not severe complications of pregnancy requiring the activation of a claim.

\*~\$1,000-\$7,800 over maternity estimate is generally due. Variations exist based on estimate and underwriting.

## ~4

Percent of cases require the activation of a claim to Lloyds of London due to pregnancy complications that exceed the deductible, and the balance of the insurance premium is paid to activate and file a claim.

\*~Deductible is fully funded and \$7,800 over maternity estimate generally due, plus any non-covered balance billing if there were exclusions like genetic testing or pre-existing conditions. Variations exist based on providers and underwriting.

Back-Up Maternity Plan

(Backed by Lloyd's)
(previously known as
Secondary or Contingency Plan)

Contingency Plan Behind Surrogate Employer Plan or ACA/Health Insurance Plan

# The Basics of Back-Up Maternity Insurance (Contingency or Secondary Maternity)

### What is it?

- Back-up insurance in case ACA or employer plan changes mid pregnancy and new plan is not surrogacy friendly or doesn't cover existing doctor or hospital. Without this important coverage Surrogate may be left pregnant with no coverage.
- \$500,000 of coverage, with ability to upgrade. Generally, \$2,000 to buy, \$26,000 more to activate it (activation rarely needed; when it is, commonly for very large claims) (higher for twins, high-cost providers and atypical underwriting result)

### What does it cover?

• Costs of an uncomplicated or complicated surrogate pregnancy and delivery after primary insurance fails to cover and no other options fit.

### When do I order it, and when does it start and end?

• Most buy it upon medical clearance as underwriting is involved. **Assuming it is purchased and paid for by then it starts at confirmation of pregnancy and lasts beyond birth for the length of the contract**, up to 18 months, longer on request.

### What else should I know about it?

- Potential reasons primary insurance can fail, triggering the Back Up Maternity insurance to be needed include:
  - Change in location
  - Change in **spousal coverage**, or change in spousal job, leading to new coverage
  - Loss or change of employer coverage at policy renewal, often mid-pregnancy (main reason for need)
  - Change in employer coverage leadership, with change in view on surrogacy coverage
  - Change in plan restrictions at state or national level
  - Change in marital status
  - Review of insurance could be incorrect
  - Vetted In-Network Providers not accepting new patients
  - Vetted In-Network Providers on surrogacy friendly plan not taking Surrogates
  - Vetted In-Network Providers leaving network
  - Vetted In-Network Providers not taking surrogacy friendly plan that appears to be subsidized
  - Insurance companies leaving your surrogate's market
  - ACA Payment Card Failure
  - ACA Insurance Fraud Failure

### What is commonly requested?

- Many agencies mandate this as without it Intended Parents may need to pay out of pocket for all or part of a full pregnancy
- When activated claims tend to be \$50,000 to \$250,000 (smaller bills Intended Parents may pay out of pocket)
- · Most take this extra layer of protection to avoid paying large medical bills out of pocket

Please review important underwriting information and request detailed view/policy specimen to fully understand plan. Subject to change.

# ACA Plans (Affordable Care Act) for Agency Matches

# **ACA + Back Up Maternity Insurance Option**

- When Surrogate's insurance won't cover surrogacy AND timing is right (Open Enrollment Period or Special Enrollment Period)
  - IFI ACA Policy Search and Placement Service
    - IFI will search for an ACA (Affordable Care Act) health insurance plan (also known as Obamacare or US Health Insurance), seeking one that covers surrogacy
      - Insurance plans range from ~\$400 ~\$600 per month (sometimes as high as ~\$1,200)
      - Intended Parents will likely need to cover a period of after the delivery
      - Additionally, Intended Parent share of medical bills range from ~\$3,000 to as much as \$9,200 ("Maximum Out of Pocket" or "Max OOP")
      - Important note: These plans run until December 31st
        - Sometimes they may be renewed with new rates, sometimes they change (exclusions or liens added) or are eliminated
        - January 1 –Intended Parent share of medical bills starts over with new maximum out of pocket
- Lloyd's of London Back Up Maternity Plan (also known as Secondary or Contingency Plan)
  - Back-up to an ACA Plan in case the plan changes at renewal or coverage is lost or denied (generally \$2,000 to secure, + \$26,000 to use/activate)
  - Every year, there are a handful of Intended Parents who chose not to buy a back-up plan, health insurance failed, and they needed to pay bills out of pocket. These bills can range from ~\$50,000 to ~\$200,000.

# The Importance of Medical Billing Management

(IFI Comprehensive Service Level)

### What is it?

- Our experience shows approximately 80% of all medical bills contain errors. These errors cost Intended Parents money (excessive charges, double billing, overpayment). Delayed bill payments can also result in surrogates ending up in collections.
- IFI is pleased to provide professional, experienced management of billing throughout the surrogate pregnancy, delivery and post-partum with detailed reporting.

### What does it include?

Surrogate's maternity medical billing account management including:

- Review of medical bills for accuracy to avoid excessive charges and double billing
- Ensure payments and adjustments are applied properly toward appropriate areas of the insurance contract (deductibles, co-pays, co-insurance, maximum out of pocket)
- OBGYN global fee pre-payments
- Specialist/Maternal Fetal Medicine
- Hospital facility charges
- Labs, ultrasounds and diagnostic testing
- Bills related to complications of pregnancy
- Provide agency or intended parents working without an agency with estimates
- Manage escrow funds and payments to providers
- Mitigate issues through steady communication with providers

# **Medical Billing Management**

Important Support Service to
Manage the Billing Process When Surrogate's
Employer-Based Plan, ACA Plan, or is Included in
IFI Surrogacy Maternity Plan

### When do I order it? When does it start/end?

 Typically paired with ACA, or at medical clearance if pairing with employer plan. Starts at confirmation of pregnancy(ultrasound confirmation of heartbeat), ends upon zero balance with all providers (this involves reaching out to all providers, and surrogate to confirm zero balances).

### What else should I know?

• Cost is \$2,000. Volume discounts may apply to agencies outsourcing all cases.

### What is commonly ordered?

 ACA + Medical Billing Management ("Comprehensive" service level) or Employer Plan + Medical Billing Management.

\*Subject to change. Variations may apply based on provider requirements.

Manage the Billing Process When Surrogate's Employer-Based Plan, ACA Plan, or is Included in IFI Surrogacy Maternity Plan

Thank you for all your support through both journeys...I have heard horror stories from other surrogates about getting bills paid and going to collections and such, but I have never had to worry about anything working with you. You are truly amazing, and again I can't thank you enough.

"My hospital...they never listened. Thankfully, I was able to hand over...these issues to my IFI medical billing coordinator to handle the back and forth. As my final bill arrived much to my surprise, (my billing specialist) had already reviewed and paid it on my behalf. I am so thankful to her for endlessly calling month after month to deal with my hospital billing chaos. I will be insisting on returning to this same group for my sibling journey."

"You're the best! Thanks for being so tenacious about it! "

"I'm glad you are back to help during this journey! You were my life saver!!"

"I will miss you, but if I ever lose my mind enough to do surrogacy again, I will tell the agency that a firm, non-negotiable condition is that you are my bill person because you are amazing. You are an absolute joy, and I will genuinely miss you."

"Thank you...I want to thank you again for all of the blood, sweat and tears you have put into helping us."

"Thank you for everything! It's been great working with you! Hopefully, we'll get you again for next journey!"

"How bittersweet our billing journey is coming to an end haha! I'll miss you 🤣 "

"I have no outstanding bills on my end, so I think we are good to close! Thank you for everything you have done for me during this journey, I will truly be forever grateful."

"Good news! The case agreement is in place and has been signed by the hospital and plan. I want to thank you again for your assistance staying persistent in seeing this through - it relieves some stress before the big day when we start a new chapter of our lives."

"Thanks so much for dealing with my craziness through all these frustrations. Hopefully, the rest of the journey won't have as many bumps. I appreciate your continued knowledge and support."

"THANK YOU and the entire team for taking one major stress off our plates during this process."

"These are \*great\* questions. I'm going to ask them! We really really appreciate this!"

"Thanks for answering my question regarding Medical Billing Support. That was exactly the information we were looking for. :)"

"We already cannot begin to tell you how grateful we are for your help in navigating this with the hospital and working to get some answers and clarity."

### **Testimonials From Intended Parents**

### Issue:

Surrogate notified of out of network provider after services were rendered. The provider knew after the first visit that they were out of network but continued seeing her. The provider submitted several appeals and had the account on hold for over 6 months. This has resulted in the account being put on hold multiple times with no resolve.

### **Resolution:**

After trying for months to resolve this issue with the billing department with no success, we submitted a formal complaint against the billing department. After countless calls and escalation emails, the balance of \$4,797 was written off.

# **Medical Billing Management**

### **Stories of Success**

### Issue:

Provider did not disclose that self-pay flat rate delivery package wouldn't apply if surrogate had insurance (even though it doesn't cover surrogacy). We ask at cost estimate if discounts apply when surrogate cannot use their policy. There was no issue reported, we moved forward with the providers. Preparing for the delivery costs, we again explained surrogate is self-pay due to insurance having exclusion. The self-pay agreement was signed and arranged in advance of delivery. ~2 weeks after this, we received a call indicating contract was void as "she has coverage" and is not truly uninsured.

### **Resolution:**

Re-explained she technically does not have coverage since insurance excludes surrogacy, making her uncovered/uninsured for this service. We advocated this was not disclosed at the cost estimate as well as previous calls and requested exception be made due to miscommunication and how close this was to delivery. We also advised the hospital, if they truly do not allow the self-pay package to be used in these instances of exclusions, we would take note and not allow future surrogacy cases at this provider. The conversations professionally escalated to upper management, and we continued to advocate for the situation.

Over 2 weeks, we continued to communicate. It was negotiated they would extend the self-pay package. The total billed was to be \$15,997 for delivery but with our due diligence and understanding of insurance language, we were able to secure the entire delivery cost for \$5,000, saving over \$10,000 just on delivery costs.

This created a relationship with this hospital for future cases. They will extend the self-pay rate, even when insured! A major win!

### **Stories of Success**

### Issue:

Total bills owed for a twin cesarean delivery were \$29,610.72. This would have cost an additional \$11,210.72.

### Resolution:

We spoke with the provider's billing department to obtain the maximum discount possible. The conversations were **professionally escalated to upper management**. We **negotiated the total amount due with only an additional \$1,956.20 requested** in escrow funds.

### BACKUP MATERNITY PLAN

There can never be a guarantee of success:

- Surrogates can move to a location where there are no plans available to cover a surrogate maternity
- . The same or similar plan may not be available at renewal
- The plan can change at renewal and no longer cover a surrogate maternity
- The insurance company could stop offering plans in her area

For these reasons, we suggest putting a backup or contingency plan in place in case the primary plan fails to pay.

# The Basics of Surrogate Accidental Death and Additional Coverages

### What is it?

• Surrogacy friendly coverage of risk that Surrogate passes away from pregnancy complications, covid(US) or accident with several addon on options selected by most intended parents to reduce risks/responsibilities as laid out in their surrogacy contract. Plan in place for many years, backed by Lloyd's of London, a 300+ year old company and tailored for surrogacy. No underwriting, it is just bought warranted that the Surrogate has been approved by an IVF doctor.

### What does it cover?

- Death from pregnancy complications or accident
  - Financial Risk Reduction for Intended Parents Common Add On Coverages
    - Intended Parent Recovery of financial loss if Surrogate passes due to pregnancy complications or accident
    - Stillbirth Recovery of financial loss if fetus is lost after 20 weeks
    - Loss of Reproductive Organs Pays amount if she has a partial hysterectomy or loses an ovary, fallopian tube or uterus, and double if she has a full hysterectomy
    - **Permanent Disability** Pays selected amount to Surrogate if she suffers a permanent injury. Many choose this to cover the contractual period after the birth should they owe her money related to injury.

### When do I order it, and when does it start and end?

• Most buy ahead of start of medications. Runs from start of medications assuming ordered and paid for by then up to 18 months (24 also available) or until delivery whichever is first. Additional 12 months beyond birth only for pregnancy related claims. Can be extended up to 18 more months for prorated amount.

### What else should I know about it?

- Prorated refunds available as needed
- Higher rates for ages 41-45 (ask as needed)
- Takes minutes to order (has no extra underwriting when ordered ahead of start of medication)

### What is commonly requested?

- Varies by surrogacy contract / agency
  - In terms of the add-on coverages
    - Intended Parent coverage most common is \$100k, though we see many for \$150k
    - Loss of Reproductive Organs most common request is \$5k/\$10k level
    - Permanent Disability most common request is \$100k
    - Stillbirth most common request is \$100k

# Surrogate Disability Insurance / Income Replacement Options

(Assistance with Lost Wages, Childcare Expenses and Housekeeping Expenses)

# Surrogate Disability / Income Replacement Coverage of Lost Wages, Childcare and Housekeeping

- Does Your Surrogate Work?
  - We can help cover lost wages, childcare expenses and housekeeping expenses due to pregnancy complications
- Is Your Surrogate a Stay-at-Home Mom?
  - Even stay-at-home mothers will potentially need assistance for childcare and housekeeping, and perhaps spousal lost wages

Fortunately, we have 2 ways to cover these concerns!

# The Basics of Surrogate Disability Insurance

### What Is Surrogate Disability Insurance?

• Insurance to cover lost wages, childcare and housekeeping if Surrogate is hospitalized or on physician ordered bedrest, potentially saving Intended Parents thousands of dollars.

### Why do I need this?

 Typical surrogacy contracts include Intended Parents covering lost wages, childcare and housekeeping if Surrogate is on bedrest or hospitalized with pregnancy complications. Medical insurance may cover medical bills, but not wages, childcare or housekeeping. Without this coverage Intended Parents would pay these amounts out of pocket for perhaps 10-20 or more weeks.

### What does it cost?

• Costs vary by plan and level of benefits needed to cover lost wages, childcare and housekeeping. We also offer various weeks of coverage duration on the bedrest policy. The higher the amount of benefits and the longer the coverage duration, the higher the premium will be.

### When do I buy it?

• Most purchase both Surrogate Bedrest Disability and Hospital Indemnity at medical clearance as the Hospital Indemnity plan must be before start of medication to avoid a 6-month waiting period (and cannot purchase after embryo transfer) and the Bedrest policy gives a full refund if no pregnancy, so no benefit to waiting (must apply prior to complications).

### Anything else I should know?

- Both policies would have ability to end early upon miscarriage or stillbirth for a partial refund. The Hospital Indemnity policy refund would go to the Surrogate so you would need to arrange to have it returned to you.
- For Hospital Indemnity Surrogate may not reside in NY or FL. For NJ please inquire about process.
- For Bedrest Policy Surrogate must fit preferred criteria with no history of physician ordered bedrest.

# Surrogacy Bedrest Disability Policy - Longer Term Coverage

- \* Easy to order coverage for pre-childbirth pregnancy complications leading to physician ordered bedrest
- \* No Underwriting Singleton Only Warranted Surrogate fits preferred criteria (See "Important Policy Underwriting Slides)
- \* For Twins or if you prefer underwriting please inquire about process

### Coverage Features

- Policy Weekly Limit to cover the following:
  - 90% of Net Lost Wages
  - 100% of Childcare
  - 100% of Housekeeping
- Singleton or Twins coverage available
- Full refund if no pregnancy is achieved
- Pro-Rated refund if miscarriage or stillbirth (if no claim made)
- Up to \$1,800/week of coverage (higher limits on request)
- Coverage ends upon childbirth

### **Important Notes**

- Surrogates with a previous physician ordered bedrest excluded
- Subject to surrogate meeting preferred criteria, subject to underwriter discretion
- 7-day deductible means Intended Parents pay the Surrogate for the first 7 days of bedrest due to covered complications before policy starts to pay
- IFI now offers options custom fit to the dollar of need and higher weekly limits!
- Independent cases (no agency / meeting preferred criteria) subject to higher rates

### Sample Pricing (Singleton) (After 7-Day Deductible)

- \$400/week = \$640
- \$800/Week = \$1,275
- \$1,200/Week = \$1,910
- \$1,600/Week = \$2,550
- \* Coverage available up to \$1,800 (higher with proof of income and underwriting)
- \* Coverage length includes 16, 20 and 32 weeks

See policy specimen for full details. Subject to change.

# **Surrogate Bedrest Disability - Frequently Asked Questions**

### Q. When does coverage begin?

A: Coverage starts at confirmation of pregnancy.

### Q. When does coverage end?

A: Coverage ends at normal childbirth. If pregnancy terminates without a normal childbirth, coverage period may be extended for up to two (2) weeks post termination if needed due to miscarriage or other pregnancy related complication (must be detailed in writing by Surrogate's treating physician).

### Q: Will there be a refund if pregnancy is not achieved? What about a miscarriage or still birth?

A: Yes, there will be a full refund if no pregnancy. A pro-rated refund is offered upon miscarriage or still birth assuming no claim. If a twin pregnancy results in loss of one child, partial refund to the singleton rate will occur, assuming no claim.

### Q: How is net lost wages defined?

A: Net Lost Wages means the Surrogate's average weekly earnings from her usual employment, excluding bonuses, overtime, commissions and sick pay, and net of all tax related deductions.

### Q: What is considered an acceptable reason for a claim?

A: Coverage is provided for physician ordered bedrest resulting from severe complications of childbirth.

### Q: What is considered severe complications?

A: Definition of "Severe Complications" and "Severe Complications" includes physical conditions that result from or are aggravated by pregnancy and have an adverse effect on a woman's health. The consequences of "Severe Complications" are wide-ranging and include higher health service use, higher direct medical costs, extended hospitalization stays, and long-term rehabilitation. Named severe complications including but not limited to severe preeclampsia, pregnancy induced hypertension, gestational diabetes, uterine rupture, disseminated intravascular coagulation (DIC), chorioamnionitis, wound dehiscence, stroke, pulmonary embolism, amniotic fluid embolism.

### See policy specimen for full details. Subject to change.

## Coverage for US Based Intended Parents

#### **Newborn Coverage For Domestic United States Intended Parents**

Common practice is to add to your own plan; however, this won't always be possible.

#### **Step 1 - Checking Your Newborn Insurance/Coverage for Domestic US Intended Parents**

- It's good practice to reach out to your insurance provider and confirm how it will work to add a newborn to your plan. Sometimes we see cases where there is no out of network coverage. When this happens, we suggest you check with your employers if other options will be available at the employer's open enrollment that might fit. If not, we have 3 potential choices.
- In these cases, see the next page.

#### **Need Help? Check Your Insurance With Help From IFI**

#### **IFI Domestic Newborn Consultation**

- Even if your insurance does cover, it can be overwhelming to figure out what to ask, when, and to what parties. IFI and our professional, experienced medical billing team, IFI Billing Management Services, offer a service to address domestic US based Intended Parent newborn questions and support needs.

Cost: \$150

#### Includes: Up to 30-minute consultation with newborn medical billing specialist to:

- Explain the features of insurance and how it works
- Explanation of key terms deductible, co-payment, coinsurance, maximum out of pocket, in network vs. out-of-network
- Explanation of how to add a baby to your plan
- Provide you with a line of questions to ask your insurer to clarify coverage and what it will look like
- Answer any follow up questions you have (if applicable) via email (after your call)
- Explain our "Domestic US Newborn Billing Management" options to see if useful (at \$250 discount off rates of international cases)

#### **Coverage For United States Based Intended Parents**

Common practice is to add your baby/babies to your own plan; however, this won't always be possible.

#### Those with No Insurance, or Insurance that Won't Allow Adding a Baby or Babies

Occasionally we find cases where there is no coverage due to being out of network. Sometimes coverage might be out of network, but still with coverage. Sometimes, though, there is **no coverage at all**, especially in cases where intended parents are in one state, and surrogate/delivery in another, or when intended parents have an HMO, or similar limited network coverage. When this happens, it's good practice to check with your employers if other options will be available at the employer's open enrollment that might fit. If not, we have 3 potential choices.

#### **Potential Options**

#### 1. New Coverage for Intended Parent(s)

IFI can assist with finding new coverage for the intended parents. Generally, this needs to be during open enrollment (commonly November through early January for policy start January or February). We research to find plans with a wider network, covering in the delivery location. IFI performs this research for a fee, and if a plan is found, can assist with placing the coverage and ensuring first premium is submitted.

#### 2. Child Only Plan

Child only plans can be difficult to qualify for with needs of residency in the state of delivery for 6+ months amongst other requirements. For a fee we can research options.

IFI charges \$495 to evaluate both option 1 and 2 above to see if either will fit. Options are limited. There is no guarantee of a plan available, and fee will be due for the research performed regardless of the outcome. For options 1 and 2 we will recommend Back-Up/Secondary Newborn Coverage, which is 20% of the Lloyds Newborn Insurance premium initially, with remainder and deductible due upon activation if option 1 or 2 failed. (see next slide)

#### 3. Private Newborn Insurance and/or IFI Newborn Negotiation and Billing Management Services

If neither of the above fit, we can review private insurance coverage options. There is no charge for the consultation.

## Private Newborn Coverage (When No Other Options Fit)

#### The Basics of Newborn Insurance

#### What Is Newborn Coverage?

• Newborn Insurance is there to cover the medical bills of baby or babies of Intended Parents delivering without other insurance that covers newborn medical bills. Commonly this insurance is intended to cover very large medical bills.

#### Why do I need this?

- Typical needs include:
  - "Well-Baby Care" (the 1–2-night hospital stay for a healthy baby to have applicable tests run prior to releasing the baby.) This is typically \$3,000 to \$10,000. Costs vary.
  - "NICU" (Newborn/Neo-Natal Intensive Care Unit) this is when a baby is delivered early and needs extra special care. This is typically \$10,000 to \$25,000 per day.
- Without insurance coverage, Intended Parents could be responsible for bills in the hundreds of thousands of dollars.

#### What does it cost?

 Costs vary by plan and availability changes often. The following pages outline the options currently available.

#### When do I buy it?

• Plan availability is ever-changing. It is good to begin discussions as early as upon match. Some plans have historically been needed months before transfer, others not until mid-pregnancy.

#### Anything else I should know?

• IFI also offers Newborn Negotiation and Billing Management to reduce costs and stress throughout the process. Most Intended Parents pair this with a newborn insurance plan, or it can be purchased on its own, though it is not insurance.

#### What's the right plan for you? We offer the following options:

#### **Insurance Based Options**

• **Lloyd's of London**: Apply as early as confirmation of pregnancy; not available if complications occur prior to securing coverage.

#### **Additional Services**

IFI Newborn Negotiation and Billing Management: For Intended Parents who choose not to apply for a
newborn insurance policy, IFI offers Newborn Negotiation and Billing Management. Also useful in
conjunction with insurance plans to reduce normal well baby care bill (commonly \$3,000 to \$10,000
which we can often reduce by 30%-75%), or cases where NICU (Intensive Care Unit) bills exceed
insurance plan benefit limits.

#### Lloyd's Singleton Plan Options (Includes IFI Newborn Negotiation and Billing Management\*)

Due at Confirmation of Pregnancy (or on Approval if After Confirmation of Pregnancy)				Due on a Large Claim	
COVERAGE LIMIT	Initial Premium	Policy Administration	IFI Newborn Billing Management*	Activation Premium (only due on larger claims)**	Deductible (only due on larger claims)***

\$350,000	\$8,500	\$1,000	\$1,000	\$6,500	\$40,000

- \*Includes **IFI Newborn Negotiation and Billing Management Level 2**. IFI will work with providers to reduce newborn expenses for well-baby care (first 1-2 days for a healthy baby to perform tests to confirm baby is ready for release) bill by generally 20-90% (historical results, no guarantee of future results. Average 69% on NICU, 45% on Well Baby Care as of 12/2023 data). \$4,500 is invoiced due by week 20 of pregnancy to cover reduced well baby care bill, which often includes pre-payment discounts. Remaining escrow is returned. Roughly 1% of the time additional funds are needed.
- \*\*Activation Premium is the amount needed to activate a large claim exceeding deductible.
  - \*\*\*Deductible is the amount you pay before the insurance company pays a covered claim up to the benefit limit.
- Long standing insurance company operating for more than 300 years.
- Payment is made to hospital directly; Intended Parents won't need to pay and seek reimbursement (rare exceptions could arise, as each hospital is unique).
- No network limitations(rare exceptions may apply).
- Ability to upgrade to level 3 IFI Newborn Negotiation and Billing Management for \$250. Ability to add NICU Support (Newborn/Neo-Natal Intensive Care Unit) for \$1,500 (only upon need).
- Refund Policy 100% is returned, less \$1,000 policy administration fee if there is no live birth.
- Aside from lifesaving surgical procedures within the newborn intensive care unit, treatment for congenital disorders is excluded under the Lloyd's policy.
- Policy is limited to the first 60 days after birth.
- Application takes approximately 5-10 business days from complete submission. Policy is not in force until approved and paid. We suggest applying as soon as confirmation of pregnancy to reduce risk of decline.
- For additional details please inquire or seek a policy specimen.

  - · Add-on to any of the above when intensive care unit is needed
    - Negotiation and evaluation of NICU bills
    - Any currently held escrow balance will be applied to balances when possible
    - Instructions on how/where to make payment for remaining balances
    - Payment plan creation and coordination when possible

## Coverage for Expanding US Based Families

#### **Protecting Your Family - United States Based Intended Parents**

Many of the services we provide to cover Surrogates may also be offered to Intended Parents as they add to their families. IFI is happy to review your existing insurance, then explain how to expand coverage to meet your new needs.

Building your Estate Plan:

Your estate plan should include the following:

#### Life Insurance

- Allowing your family to continue with your dreams if a parent passed away sadly, reducing income
  that was intended to fulfill your plans.
- Generally, we find most have coverage that matches their salary through work, when they should ideally have \$1-2 million or more in life insurance.

#### Disability Insurance

- Allowing your family to continue with your dreams if a parent were injured and unable to work,
   reducing income that was intended to fulfill your plans.
- Generally, we find most have 60%-66% their salary through work, and often for a short period.
   Parents should ideally have coverage that continues through planned retirement age, covering both short-term and long-term injuries.

IFI evaluates over 80 life and disability insurance companies, enabling us to provide competitive prices with companies of reputable financial strength and streamlined underwriting processes.

## **Newborn Coverage for International Parents**

#### The Basics of Newborn Insurance

#### What Is Newborn Coverage?

Newborn Insurance is there to cover the medical bills of baby or babies of Intended Parents delivering
without other insurance that covers newborn medical bills. Commonly this insurance is intended to cover
very large medical bills.

#### Why do I need this?

- Typical needs include:
  - "Well-Baby Care" (the 1–2-night hospital stay for a healthy baby to have applicable tests run prior to releasing the baby.) This is typically \$3,000 to \$10,000. Costs vary.
  - "NICU" (Newborn/Neo-Natal Intensive Care Unit) this is when a baby is delivered early and needs extra special care. This is typically \$10,000 to \$25,000 per day.
- Without insurance coverage, Intended Parents could be responsible for bills in the hundreds of thousands of dollars.

- Ability to upgrade to level 3 IFI Newborn Negotiation and Billing Management for \$250. Ability to add NICU Support (Newborn/Neo-Natal Intensive Care Unit) for \$1,500 (only upon need).
- Refund Policy 100% is returned, less \$1,000 policy administration fee if there is no live birth.
- Aside from lifesaving surgical procedures within the newborn intensive care unit, treatment for congenital disorders is excluded under the Lloyd's policy.
- Policy is limited to the first 60 days after birth.
- Application takes approximately 5-10 business days from complete submission. Policy is not in force until approved and paid. We suggest applying as soon as confirmation of pregnancy to reduce risk of decline.
- For additional details please inquire or seek a policy specimen.

- The Newborn Insurance plans just reviewed generally cover severe complications (NICU / Intensive Care Unit).
- IFI has a service to assist with the "Well Baby Care" billing, often saving Intended Parents thousands of dollars!
- If no newborn insurance is acquired, or if costs exceed policy limits, IFI can help negotiate NICU/Intensive Care Unit bills. IFI will work with providers to reduce newborn expenses for well-baby care (first 1-2 days for a healthy baby to perform tests to confirm baby is ready for release) bill by generally 20-90% (historical results, no guarantee of future results. Average 69% on NICU, 45% on Well Baby as of 12/2023 data). \$4,500 is invoiced due by week 20 of pregnancy to cover reduced well baby care bill, which often includes pre-payment discounts. Excess is returned.
- IFI also assists with pediatric visit support.

OVERVIEW	DETAILS		
<b>Enrollment Cost</b>	<ul> <li>See next page for support levels beginning at \$750</li> </ul>		
Who is this for?	<ul> <li>If Intended Parents prefer to go without insurance for any medical bills to cover their newborn baby or babies, IFI will assist with negotiating special self-pay hospital and medical rates.</li> <li>Newborn billing can be tricky and time consuming. We are happy to assist via our professional billing management team.</li> </ul>		
How does it work?	For Level 1 (unmanaged), IFI presents a plan. For Level 2 and above, IFI will collect escrow for negotiated newborn care rates, plus additional fees as needed for complications/emergencies. This is not insurance, and there is no limit on expenses the intended parents will incur. Estimates are estimates and subject to change.		

- In addition to Lloyds, or on its own, most add IFI Newborn Negotiation and Billing Management service. This is not insurance, but rather our management service led by our experienced team of medical billing professionals. We have the below levels of service.
- We have 4 levels of service:

#### Level 1 – Unmanaged Newborn Negotiation & Well Baby Quote

\$750 service fee

(no escrow)

Includes Newborn Cost Estimate seeking reduced rates

- Instructions on where/how to make payment
- Note: Estimate is an estimate only and subject to change

#### Level 2 -Newborn Negotiation and Billing Management (Included in conjunction with Lloyds Plans)

\$1,000 service fee (+\$4,500 escrow)

- Level 1 plus
  - Collecting and maintaining escrow (Newborn Cost Estimate amount)
  - Review and evaluation of bills, payment of bills, zero balance statement (complete ledger summary at account closing)

#### Level 3 – Newborn Negotiation and Billing Management and Pediatric Appointment Support

\$1,250 service fee (+5,000 escrow)

- Level 1 and 2 plus
  - Evaluate and negotiate bills of pediatric visits, including payment of bills and zero balance statement (complete ledger summary at account closing)

#### **Newborn Intensive Care Unit (NICU)**

- + \$1,500 service fee (no escrow, IFI Medical Billing Management case managers to invoice for this)
  - · Add-on to any of the above when intensive care unit is needed
    - Negotiation and evaluation of NICU bills
    - Any currently held escrow balance will be applied to balances when possible
    - Instructions on how/where to make payment for remaining balances
    - Payment plan creation and coordination when possible

# Travel Emergency Medical Insurance

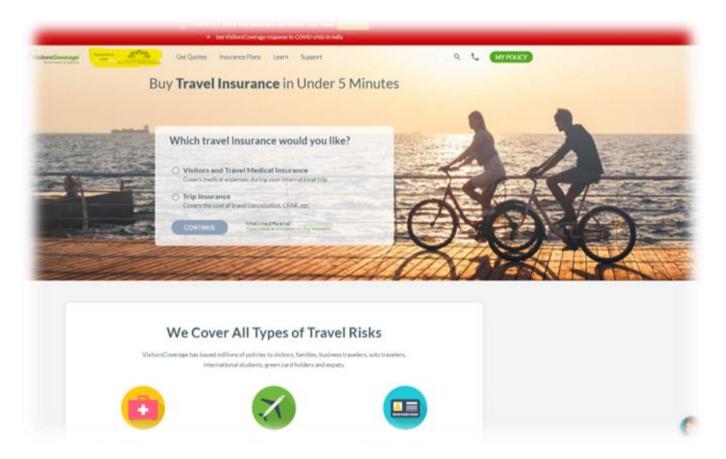

#### **Travel Insurance for Intended Parents, Donors and Surrogates**

- Travel Medical Insurance helps cover unplanned medical needs when traveling abroad from your home country
- Trip insurance provides "Travel Medical Insurance" and adds "Trip Cancelation Insurance" which many have found useful with the evolving health world we live in
- We offer a variety of inexpensive plans, some of which include COVID coverage
- We have a broker portal that makes ordering easy
  - The broker portal has policy booklets and payment can be processed on the spot by credit card

#### **Travel Insurance Portal**

## **Newborn Coverage for Canadian Births**

#### The Basics of Newborn Insurance

#### What Is Newborn Coverage?

Newborn Insurance is there to cover the medical bills of baby or babies of Intended Parents delivering
without other insurance that covers newborn medical bills. Commonly this insurance is intended to cover
very large medical bills.

#### Why do I need this?

- Typical needs include:
  - "Well-Baby Care" (the 1–2-night hospital stay for a healthy baby to have applicable tests run prior to releasing the baby.) This is typically \$3,000 to \$10,000. Costs vary.
  - "NICU" (Newborn/Neo-Natal Intensive Care Unit) this is when a baby is delivered early and needs extra special care. This is typically \$10,000 to \$25,000 per day.
- Without insurance coverage, Intended Parents could be responsible for bills in the hundreds of thousands of dollars.

#### What does it cost?

 Costs vary by plan and availability changes often. The following pages outline the options currently available.

#### When do I buy it?

• Plan availability is ever-changing. It is good to begin discussions as early as upon match. Some plans have historically been needed months before transfer, others not until mid-pregnancy.

#### Anything else I should know?

• IFI also offers Newborn Negotiation and Billing Management to reduce costs and stress throughout the process. Most Intended Parents pair this with a newborn insurance plan, or it can be purchased on its own, though it is not insurance.

# Baby Shield by PassportCard (formerly David Shield) (Canada Births only)

#### **Baby Shield by PassportCard (formerly David Shield)**

#### **Key Details (all figures US Dollar)**

- Backed by PassportCard (formerly David Shield)
- Available to Intended Parents globally (except Canadians)
- Can only be used for births taking place in Canada.
- Direct Billing, as well as a David Shield Card for any small charges in case any issues arise
- \$5,000,000 in coverage, 500,000 limit if congenital disorders
- No network limitations
- Monthly payment of \$1,200/month, then \$290/month to add baby (from delivery on to add coverage for baby)
- Administrative fees \$670 to Baby Shield, \$750 to IFI
- Ability to cancel, then restart upon a failed transfer
- Single embryo transfer only, though coverage is allowed on split embryo

#### **Negatives**

- Must buy 1 month ahead of transfer
- Well baby is not covered (many add IFI Newborn Negotiation service to reduce this cost and arrange payment instructions)
- Policy actively used 2 years, though from a long-standing company. We connect you with the Baby Shield team to have your questions answered to feel confident before buying.

#### **Application Process** (generally 2-3 weeks, occasionally longer if additional records requested)

- IFI collects basic details and provides initial education until ready to move process forward.
- When ready for more detailed questions we collect a \$750 administrative fee and connect you with Baby Shield team for application processing and/or any additional questions. This fee is refundable if you do not sign up for the policy.

#### **Special Note**

• IFI Newborn Negotiation and Billing Management not mandated though highly suggested with this plan for savings, namely in terms of well baby care along with additional support as your new baby arrives to reduce stress.

- The Newborn Insurance plans just reviewed generally cover severe complications (NICU / Intensive Care Unit).
- IFI has a service to assist with the "Well Baby Care" billing, often saving Intended Parents thousands of dollars!
